

PETER'S YARD

Peter's Yard use all natural, high quality ingredients to produce an award winning sourdough crispbread that is light in texture and subtle in flavour, making it the perfect partner for cheese.

A team of craft bakers use naturally fermenting sourdough, fresh milk, organic Shipton Mill flour, salt and honey to create irresistibly crisp, thin bread where no two pieces are ever alike. The versatile nature of the product means it can be used as a canape base, with any number of sweet or savoury toppings, or as an alternative to fresh bread.
